

P.O. Box 601

July 15, 1966

Dear Member:

The general membership meeting held on June 25, 1966 marked a milestone in the association's history.

A very important presentation was made regarding the purchase of lands, including the Niles Rights, from Lake Waterloo Corporation. The Board of Governors were gratified by the extreme interest indicated by the many questions and suggestions. The method of raising the funds was explained and this will be by sale of promissory notes. The association showed its inherent strength by unanimously voting that the Board of Governors proceed with the plan of raising money and purchasing the remaining holdings of the real estate company in Wildwood Shores.

Now we are prepared to sell the notes, which are in the denomination of \$250 each. Several teams of two will call personally on the entire membership in residence at Wildwood Shores. Please be ready to make that important investment in your community when your team knocks on your door. Those of you who are not currently living at Wildwood Shores can mail your checks payable to W.S.P.O.A. A promissory note(s) will be sent to you by return mail.

This is your chance to invest in a good cause - "your community"; please do your part.

Sincerely yours,

Mesrop Gulamerian
