Gentlemen:

It is with sincere regret that I give this notice of my resignation from the "Board". As you know, my primary reason for accepting a place on the "Board" was the hope of assisting in the management of our finances. Unfortunately, it has not been possible to do any work thus far, due to lack of material, and from now until the end of June my time is very limited outside of my school work.

Please be assured that my action is taken with great reluctance and not because of any loss of interest in our problems.

Very truly yours,

  
Eugene A. Bacquet
