WILDWOOD SHORES PROPERTY OWNERS ASSN.
Lake Hopatcong, N.J.

May 23, 1949.

Dear Member:

At the Annual Meeting of the Association, which was held in our Clubhouse May 7th last, it was regularly moved, seconded and carried unanimously that the following three items be brought to the attention of all members in writing, in the hope that causes for complaints may be eliminated without the necessity of a committee calling on offenders. All members hereby are requested to cooperate for the benefit of our community as a whole.

DOGS

Increased membership has brought an increase in the number of pets. Dogs should be kept on a leash whenever they are allowed outside of the member's cottage. Some members don't own dogs and prefer not to be bothered with the dogs owned by others. Dogs in Wildwood Shores have given children and others a scare, and with the advent of hot weather may bite a stranger. For the protection of all, therefore, please keep your dog, if you own one, on a leash when he or she is not in the house or fenced in.

AUTOMOBILES

Automobiles rushing thru Wildwood Shores Development at more than fifteen (15) miles per hour, rip up our roads and are a hazard. Help us conserve on road repairs which are expensive for YOUR treasury. Help us prevent accidents by watching the speed of the cars operated by ourselves and our relations and friends. Hold the speed down so as not to exceed 15 miles per hour.

GARBAGE

Have you noticed some of the make-shift containers some folks are using for their garbage disposal? Newspapers, cardboard boxes and the like, which the wind, rain or animals in the vicinity scatter over the road, creating eye-sores. Let us continue to be proud of our Development! Please use only a metal container with an appropriate cover for garbage disposal.

YOUR COOPERATION IN ALL THE ABOVE WILL BE APPRECIATED.

By order of
President
Board of Governors
