

August 14, 1967

Dear Member,

At no other time in the history of Wildwood Shores Property Owners Association has the general membership been so well informed on critical topics. The informative mailings to to the general membership during the past two years far exceed the record of any other two year period.

Unfortunately the critical problems that your association faced during the past two years prevented spending time on the social activities. However, if the board accomplished what it set out to do, the sacrifice of social activities is worthwhile.

The fact that we now have eight candidates at this early date is indicative of the enthusiasm and interest that has been generated. I have no doubt that there will be additional candidates nominated at our meeting. Unless you are there you will not be in a position to make a last minute decision.

If you believe in my judgement and cannot attend, may I cast your votes where they will do the association and consequently us the most good. Don't waste your vote by not voting - come to the meeting or sign the enclosed proxy.

Sincerely yours,

Gene Bacquet
